

METHOD AND SYSTEM FOR PROVIDING AN END-TO-END BUSINESS
PROCESS FOR ELECTRONIC SUPPLIER QUALIFICATION AND QUALITY
MANAGEMENT

ABSTRACT OF THE DISCLOSURE

5 An exemplary embodiment of the invention relates to an
integrated computer-based method and system for facilitating
supplier qualification and quality management. This
computer-based method and system includes a host system
receiving a request from a user system to execute supplier
10 qualification and quality management software, executing the
requested software at the host system, sending results of
the software execution to the user system, receiving input
at the host system from the user system in response to the
software execution, and providing the user system with
15 output generated as a result of executing the software. The
supplier qualification and quality management software
includes a selection module, a qualification module and a
quality module.
